A decorative background on the left side of the slide, featuring a chalkboard with green chalk. There are two pieces of pink chalk and a white chalk arrow pointing upwards. The background is dark and textured, resembling a chalkboard surface.

1. CPAP is a non-profit organization that provides free comprehensive educational support and services to underserved students and their families.

CPAP offers these services to schools and community-based organizations on a reasonable contract basis.

2. Our multi-resource center offers consultation, planning tools and guidance to all applicants regardless of racial, economic circumstances.

3. CPAP compiles an educational profile for students and tracks their progress from middle school (or the point of registration) through high school.

Parental/Guardian consent is required.

A decorative vertical strip on the left side of the slide. It features a dark, textured top section, a green middle section with a white chalkboard-like texture, and a bottom section with a white chalkboard-like texture. There are two pieces of pink chalk and a white chalk arrow pointing upwards on the green section.

4. CPAP helps to prepare students to meet changing global career initiatives including access to the Sciences, Technology, Engineering, Health care, Computer Education and much more.

A decorative graphic on the left side of the slide, featuring a green chalkboard background with white chalk markings, including a large number '4' and some curved lines. Two pieces of pink chalk are also visible.

5. CPAP offers full support to ensure a student's academic and athletic success leading to colleges, technical or trade schools.

Our Mission:

We are motivated to serve as a catalyst to reach more underserved students and communities with an intimate approach to addressing their needs.

Benefits for Students & Athletes

Our focus is to work with students who need a supplemental plan of action whether in a school or Community-Based Organization.

Statistics show there is a steady decline in student performances that can benefit from our services.

How can CPAP supplement existing programs?

How Schools can Benefit

CPAP contracts with schools to improve student academics and athletic achievements with supplemental support and consultation support for family-school relationships.

A decorative vertical strip on the left side of the slide. It features a dark, textured top section, a green middle section with a white chalkboard-like texture, and a bottom section with a white chalkboard-like texture. Two pieces of pink chalk are visible on the green section, and a white arrow points upwards from the bottom section.

Community Based Organizations

CPAP adds value to existing community-based organizations (CBO's) with a channel to educational alternatives using formal and adaptive methods.

A decorative vertical strip on the left side of the slide. It features a dark, textured top section, a green middle section, and a white bottom section. There are two pieces of pink chalk and some white chalk markings on the green and white sections.

CPAP services include:

- **Course Curriculums**
- **Profiles**
- **Tracking**
- **School Selections**
- **Athletic Clearinghouses**
- **Financial Planning**
- **Career Counseling**

Career Choices

CPAP

Full-time College

The decisions to attend a full-time college or university is contingent on factors such as academic and/or athletic achievements which can offer varying degrees of scholarships, awards and grants. CPAP acts as a clearinghouse that can create more seamless decision-making process. Preparation in high school is a major asset in which CPAP can help.

Community Colleges

An exciting option that can be a lot less expensive. Community colleges can offer opportunities to working adults who seek to complete an associate degree or upgrade career skills. Other advantages range from more optional schedules and a quicker portal to a great paying job and career. The CPAP database narrows the search for students. Some athletes benefit from this route to prepare for major college competition.

Technical/Trade Schools

In a rapidly changing global work market, this is an excellent choice for those who for various reasons, may not pursue the conventional path. Technical and trade skills are among the fastest growing segments in the future workplace. Again, CPAP offers a vast resource of available schools and opportunities that can be financed through some of the same funding sources to prospective students.
